Dear Graydon:

We would like to thank you for the outstanding service during the start-up of our corporation. The in-depth analysis of our IT requirements and subsequent implementation of network servers, firewall, mail server, and workstations has provided us with a stable, secure network environment.

During the rapid expansion of the Birchcliff team, Global Edge has been instrumental in providing a high level of support.

Your attention to detail and timely response to our needs is greatly appreciated. The ongoing support you provide us allows us to concentrate on our business.

I have no hesitation in recommending Global Edge to others for these services.
