Dear Robbie:

I would like to commend Global Edge in providing Birchcliff with our SharePoint Intranet. This has grown to include not only our "Birchcliff Backyard" but IT Help Desk, IT CSOX tracking, as well as Compliance Calendaring and workflows. Having all our important information in a central, easy to access portal has streamlined how we track projects and compliance dates.

Our Engineering group is very pleased with the database, utilizing InfoPath, that contains all our well information and links to documentation. They are anxious to move onto the next phase of this project.

We look forward to implementing our other requirements in the next two quarters. We appreciate your reactivity and commitment to our requirements.

We would highly recommend your company for anyone seeking SharePoint development. Please feel free to have potential clients call me directly if they require more information.

Yours truly,
