Dear Graydon:

Over the years, Global Edge has provided fantastic technical support and customer service. Their services have greatly facilitated our day to day efforts. Recently, Global Edge installed the CudaTel VOIP system within our office. It was not only a smooth transition from our old phone system, but it has substantially reduced our phone bill as well. We would recommend the services of Global Edge to any company looking to improve their IT needs.

Sincerely,

Darren Belgrave
